PRAEFATIO

En tandem, beneuole lector, *Clauis Patrum Graecorum* Indices, in quo opere conficiendo multum operae ac laboris consumpsimus. Est enim labor ingratus, insuauis, molestus.

Sed iam exponamus quid lector de isto uolumine sperare possit.

In Indice Nominum et Operum omnia nomina et auctorum et aliorum reperienda sunt, non ita tamen ut nomen, ubicumque occurrit, semper consignare censuerimus sed solum ubi nomen lumen aliquid afferat. Vt exemplum sumam de Eusebio Caesariensi: superuacaneum nobis uidetur in indice sub Eusebii nomine lectorem reuocare ad *Quadrati Apologiam* (1060), quod fragmentum in Eusebii *Historia Ecclesiastica* seruata est, aliud est si opus aliquid in codice aliquo aut ab litteris erudito iure aut fortasse iniuria Eusebio attribuitur.

Auctorum opera tantum enumerantur si eorum magnus numerus exstat, ita ut ad opus reperiendum multae paginae perlustrandae sint. Non semper eandem rerum dispositionem conseruauimus, sed summa ope nisi sumus ut lector facile expetitur reperiat.

An index systematicus conficiendus esset multum diuque haesimus et quod plus est experti sumus quid possemus. Sed statim apparuit rem esse infinitam, si themata singula enumerare uis, rursus indicem fore minimi pretii, si themata e titulis operum praesertim homiliarum excerptis.

Qua de re, cum impossibile uideretur indicem qui nobis ante oculos obseruabatur perficere et cum iam instrumenta non desint, puta F. Cavallera, *Indices*, conatu desistimus.

Indicem autem biblicum omittere nefas erat, sed et hic monemus homiliarum themata plerumque e titulis desumpta esse.

Concordantiarum ratio patet.

Speramus hos indices, qualescumque sint, lectori usui fore.
